

# Your Heart Is in the Right Place

Our experts specialize in diagnosing and treating conditions of the heart and circulatory system. Available for consultations and second opinions, we are part of the growing Our Lady of Lourdes Physician Group, with more than 130 providers offering prevention options in addition to primary and specialist care for hypertension, high cholesterol, lung nodules, heart attack and stroke.

We offer minimally invasive and robotic surgery options for coronary bypass, heart valve replacement, major aortic surgery and lung nodule biopsy and treatment. Procedures available:

- Cardiac bypass surgery
- Aortic aneurysm repair
- Heart defect repair
- Heart valve repair and replacement
- Abdominal aortic aneurysm repair
- Carotid endarterectomy
- Collaborative transcatheter aortic valve repair (TAVR)
- Lung and chest wall repair
- Lung and esophageal cancer treatment
  - Robot-assisted lung biopsy and treatment
- Peripheral vascular surgery
- Robotic cardiac and lung surgery
- Thoracic endovascular aneurysm repair (TEVAR)
- Valvular heart disease corrective surgery for
  - Congenital heart disease
  - Hypertrophic cardiomyopathy
  - Marfan syndrome
  - Pericardial disease
