

# OB Hospitalist Program

Our in-house, experienced OB Hospitalists and Certified Nurse Midwives are ready to assist you and care for your patient's individual needs any time of the day or night. You can rely on:

- Immediate, experienced response for OB-related emergencies
- Assistance with surgeries, deliveries and labor process management
- Evaluation and treatment of patients who present to the ER with an obstetric or gynecological complaint
- Collaboration with Maternal-Fetal Medicine specialists to manage complex cases
